DESCRIPTION OF ORGANIZATION

Low Entropy Foundation (LEF), a non-profit organization was incorporated on February 23, 2017, under BC Societies Act. LEF provides various programs for personal development to people.

1. BASIS OF ACCOUNTING

Items recognized in financial information are accounted for in accordance with the accrual basis of accounting. The accrual basis of accounting recognizes the effect of transactions and events in the period in which the transactions and events occur, regardless of whether there has been a receipt or payment of cash or its equivalent.

i. Equipment

Equipment is recorded at cost less accumulated amortization. When equipment no longer has any long-term service potential for the Society, it is written down to its residual value, if any. Amortization is provided over the assets' estimated useful life using the straight-line method at the following rates:

Furniture - 20.0% Computer equipment - 33.3% Equipment - 33.3%

ii. Revenue recognition

The Society follows the deferral method of accounting for contributions.

Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Grants are recognized as revenue for the fiscal period to which they apply.

Donations and thrift store receipts are recognized as income in the period in which they are earned.

2. OPERATIONS AND INCOME TAXES
